

FRIDAY EVENING, MAY 20, 1853.

Death by Drowning.

We are informed by Mr. F. E. Yager, of Monroe county, that Mr. Wm. Yates, living in Indian Creek Township, in Monroe county, lost his life by drowning, last Tuesday (17th). The accident occurred in Salt River, a short distance below Florida. Mr. Yates and three of his neighbors had gone into the river with a seine, and while wading through the water, all three suddenly stepped into a hole about ten feet deep. All saved themselves by swimming, except Mr. Yates, who was drowned before assistance could be rendered.

He has a brother living near St. Joseph. The St. Joseph papers will therefore please copy.

We believe the Railroad excitement has pretty much died away in this place; our citizens have commenced building again. There will be some good houses put up here this season. [Bloomington Jour.]

A man of wit once said rightly enough: "He who finds a good son-in-law, gains a son—his wife finds a bad one, loses a daughter."

From the Hannibal Courier.

THE FEELING IN PALMYRA.
An article was prepared for last week's paper, touching the liberal comments of the Journal upon the spirit manifested at the Plankroad meeting recently held in Palmyra, which was not published for want of space. Had the matter not been broached by another, and the same illiberal spirit manifested by the Journal in defending the report it first made of the meeting, we should not again have taken up the subject. The Journal asserts there was nothing "scurrilous" in its report; but we beg leave to differ. What interpretation does it put upon the following statement? which we find in its article of the 2d of May, viz:

"There are not half a dozen men in Palmyra who will go for a plank road to Seipio, because Hannibal might connect with it at that point."

This is an unqualified statement, and therefore a perversion of public sentiment in Palmyra. The hostility of the Palmyreans is confined to a few selfish capitalists, who will not subscribe a single dollar to plankroad enterprises, let them be as beneficial as they may. Again, a disposition is prevalent in Palmyra to concentrate its capital and energies upon one project first—that of a road to Philadelphia—and then, when that enterprise is under fair headway, to extend its operations in whatever direction may be most advantageous to them. At present, roads north and west hold out greater inducements to Palmyra, than one to this city; but, at no distant day, a road to Seipio will find many ardent friends at our county seat.

Another feature of injustice is visible in the article under consideration. The remarks of Col. Davis are distorted, and that gentleman ridiculed in an illiberal manner. We are far from desiring to introduce political prejudice into affairs of a local nature; but the spleen evinced in the tenor of the Journal's would-be pleasantries, justify the presumption that they were alloyed with party preference. In fact, the tone of the Journal's article gives evidence of local and political bias, which should not be tolerated when questions of such vital importance are before the public. The Journal is too much inclined to hold up Hannibal as a Kingdom, to which the neighboring towns and counties owe allegiance. We regret to see this, for it places the sentiments of our citizens in a false light, and does not do justice to their liberality and enterprise.

Hannibal and St. Joseph Railroad.

We learn that twenty-five miles of the west end of this road was put under subcontract on Tuesday the 10th inst., agreeable to advertisement. The bids accepted were at fair rates and to responsible and practical men. Mr. Duff, the original contractor is emphatically a Railroad man. He arrived at St. Joseph on the 8th inst., received numerous bids, decided the competition entered into the contract, and on the 11th inst., was on board the steamer F. X. Aubrey, at our levee, in company with Maj. Bucklin, Chief Engineer, on their way to Hannibal to commence the work on that end of the route. [Weston Reporter.]

RAILROAD LETTING.—Sealed Proposals were received on the 10th inst., for the Grading, Masonry and Bridging of the first division of H. and St. J. R. R. from St. Joseph, east, 25 miles. The Grading of the entire route was let to Messrs. Harding, Mills & Co., of New York, men well known for promptness and energy.

The heavy Masonry and Bridging on Platte River and Third Fork to Messrs. Farnore & Newman, gentlemen of acknowledged experience and ability.

The work will be commenced at an early day, and be prosecuted as rapidly as possible.

In the meantime a corps of Engineers will be in the field again in a few days, and the entire line between St. Joseph and Grand River, it is expected will be ready for contract within forty days.

The competition was spirited; several capitalists were present with proposals.

Mr. Duff left for the east, via St. Louis, on Wednesday, on the steamer F. X. Aubrey. [St. Joseph Ad.]

TEMPERANCE.

The Rev. Mr. Snow, of St. Louis, assisted by Rev. Elder Cuples, of this City, have been holding a protracted Temperance meeting in this City during the past week, at the Methodist Church. Large numbers have attended every night. A degree of interest appears to be manifested in this subject, which is highly creditable to the community and in a measure commensurate to the labors of its able advocates. We learn that an effort is being made, by the ladies of our city, to induce our Merchants to dispense with the traffic in intoxicating liquors, which is so common in most of the towns in this upper country. We learn that two of the Mercantile Houses in this city have never kept liquor in their Stores for sale or to give away. We sincerely hope the good work begun here, will continue and prosper—that the efforts of Mr. Snow, and others, may not be in vain. [Weston Reporter.]

The trial of Carter, the man who killed Circles and McDowell, in Scotland county, commences on next Monday, in Knox county. Carter having taken a change of venue from Scotland to Knox. [Canton Reporter.]

Runaway Negroes.

On last Wednesday night, three negro men belonging to Mr. Richard Meek, Rev. Elder Caples, and Joseph Evans, Esq., of this city, crossed the river and started for the Plains. A company of gentlemen started in pursuit of them, Thursday evening, and found them three miles beyond Fort Leavenworth, on Salt Lake, and arrested two of them—the one belonging to Mr. Evans made his escape in the brush—a portion of the company in pursuit of him. Mr. John Woods, one of the company, returned with the other two. The negroes say that a white man, an emigrant, induced them to leave, put them across the river, and gave them provisions. We have no evidence of the truth of the negro's statement. [Weston Reporter, 14th.]

It will be seen that we have hoisted the name of C. F. Jackson, of Howard county, as the Democratic candidate for Congress in this (third) District. He received the nomination of the District Convention, the proceedings of which will appear in our next paper.

Mr. Jackson made quite a happy and impressive speech to a crowded house, by request, soon after his nomination. [Bloomington Republican.]

SATURDAY EVENING, MAY 21, 1853.

CATHOLIC CHURCH.

Ten years ago a lot was presented to the Catholics of this city, on which to erect a church. The lot now lies vacant, and we understand that one of the original owners talks of taking steps for its reclamation, if the Catholics do not soon show some disposition to build. This we should be sorry to see, and we therefore urge upon our Catholic citizens to attend to this matter immediately.

We want to know if you are prepared to endorse a man for his championship of "Buffalo platitudes," and buffalo trails.—Courier.

We have two requests to make of our neighbor—1st, That he will prove that Benton is a champion of the Buffalo Platitude, and 2nd, That he will explain the meaning of the words "buffalo trails," used in the connection they are above. Are we to understand them as a sneer at Benton for his advocacy of the Pacific Railroad?

The Lewistown (Ill.) Republican copies our statements about two spotted negroes—one in St. Louis county and one in Monroe county, and adds:

Now, Mr. Journal man, we don't know about the white wool! but last winter, in St. Louis, we saw a negro man, who, up to his nineteenth year, was as "black as any nigger," after which time he began to turn white, in spots. His face and shoulders are now almost white. He was raised in Kentucky. If the editor of the Journal will call at Dobyns & Spaulding's daguerrean rooms, corner of Fourth and Olive streets, St. Louis, he can see a splendid miniature picture of the "animal," which if not as large as life, is "twice as natural."

New Counterfeit—Beware.

We were shown to-day a beautifully executed Ten Dollar Note of the City Bank of New Haven, Conn., pronounced by the tellers at Page & Bacon's to be counterfeit, and better calculated to pass without detection than any which have yet appeared. The signatures are an exceedingly close imitation of the genuine—the engraving a little darker, and not quite as finely executed as in the genuine—paper a little coarser, and the general appearance of the whole not quite as clean and transparent as that of the genuine. We advise the inexperienced to refuse all notes of this plate until familiar with the points of difference between the good and bad. The fact that a number of these have been rejected at the above named house this morning, leads us to mistrust that many may soon be afloat, unless great precaution be used. The counterfeit can readily be told on comparison with a genuine bill, and the best protection at present is to keep a genuine bill on hand for the purpose of comparison. [St. Louis News.]

MURDER, ARSON AND ARREST.

The police received a telegraphic despatch yesterday evening, stating that a man named Nichols murdered an Irishman at Grand River Bridge, in Henry county, in this State, and afterwards set fire to the house, which, with the body of the murdered man, was consumed. It happened on the 13th of this month. The dispatch stated further, that Nichols was about twenty years of age, and that he left Boonville on the steamer F. X. Aubrey.

The boat was searched by the police when they arrived in port, but they found no one answering the description of the fugitive. Last night Capt. Cousins arrested Nichols in some part of the city. It is probable that he got off the boat at some point above, and came to St. Louis by land. He is in confinement to-day in the calaboose.

We have learned since writing the above, that Nichols was seen on board of the U. S. Mail about 10 o'clock by Mr. Fowler. The latter immediately gave information at the Police office of the fact, and he was soon afterwards taken into custody. Nichols had taken passage on the boat named for the Ohio river. He had a horse on board, and a pair of saddle-bags containing some clothing which he bought in this city. [St. Louis News.]

CURIOUS ATTEMPT TO UPSET A STEEPLE.—The Wilkesbarre (Pa.) Times, of the 22d ult. says:

"An attempt was made to blow down the tall steeple on the square, on Sunday night last. Holes had been bored in three of the posts surrounding the bell, and charges of powder put in, secured by plugs. A small gimlet hole served to introduce the match. Two of the charges went off about midnight with a sound like the discharge of a cannon, splitting the posts, but not seriously endangering the stability of the steeple. The third charge remained on Monday morning. The design was evidently to throw the steeple down on to the main building to destroy it."

ABUNDANCE OF COLONIES.—Mons. Ampere, of whose lately published work on the United States we have copied extracts and notices, says: "It is said that there are several thousand colonies in the United States, and that if you address some one by this title in public, twenty persons will rise to answer."

THE COMET OF 1858.

The following interesting details respecting the Comet which is expected to make its appearance about the year 1858, are given by M. Rabinet, an eminent French astronomer, and member of the academy of Sciences, in an article recently published. The Boston Traveler translates from the Courier des Etats Unis:

This Comet is one of the grandest of which historians make mention. Its period of revolutions is about three hundred years. It was seen in the years 104, 392, 683, 975, 1261, and last time in 1556. Astronomers agreed in predicting its return in 1848, but it failed to appear—*maigre au rendez-vous*, according to the expression of M. Rabinet—and continues to shine still, unseen by us. Already the observatories begin to be alarmed for the fate of their beautiful wandering star. Sir John Herschel himself had put a craze upon his telescope, when a learned calculator of Middlebourg, M. Bomme, reassured the astronomical world of the continued existence of the venerable and magnificent Comet.

Disquieted as all other astronomers were, by the non-arrival of the Comet at the expected time, M. Bomme, aided by the preparatory labors of Mr. Hind, with a patience truly Dutch, has revised all the calculations, and estimated all the actions of all the planets upon the comet for three hundred years of revolution. The result of this patient labor gives the arrival of the comet in August, 1858, with an uncertainty of two years, more or less; so that from 1856 to 1860, we may expect the great comet which was the cause of the abdication of the Emperor Charles V, in 1556.

It is known that, partaking of the general superstition, which interpreted the appearance of a comet as the forerunner of fatal event, Charles V. believed that the comet directed its menaces particularly to him, as holding the first rank among sovereigns. The great and once wise, but now weak and shattered monarch, had been for some time the victim of cruel reverses. There were threatening indications in the political horizon of a still greater tempest to come. He was left to cry in despair, "Fortune abandons old men." The appearance of the blazing star seemed to him and admonition from Heaven, that he must cease to be a sovereign, if he would avoid a fatality from which one without authority might be spared. It is known the Emperor survived his abdication but a little more than two years.

TWO IN HEAVEN.—"You have two children," said I.

"I have four," was the reply; "two on earth, two in heaven."

There spoke the mother! Still here! only gone before. Still remembered, loved, and cherished by the heart and at the board; their places not yet filled; and even though their successors draw life from the same faithful breast where their dying heads were pillowed.

"Two in heaven!"
Earth less attractive! Eternity nearer! Invisible cords, drawing the maternal soul upward. "Still, small voices," ever whispering, "come!" to the world-weary spirits.

"Two in heaven!"
Mother of angels! walk softly! holy eyes watch thy footsteps! cherub forms bend to listen! Keep thy spirit free from earth's taint; so shalt thou "go to them," though "they may not return to thee."

FANNY FERN.

The order given by the United States Government, for the building of a model locomotive tender and passenger car, to be presented to the Emperor of Japan, has been filled, and in a few days it will be forwarded to Washington City, preparatory to being shipped to Japan. Explanations will be given to the Japanese of the power of steam as applied to locomotives, and the great revolution brought about by means of this agency, throughout this and other countries, wherein it has been introduced. The locomotive is complete in every particular, as also the tender and passenger car. The entire weight is 1,210 pounds, and the capacity of the locomotive is estimated at 9 tons. The passenger car is 10 feet long, 2 1/2 feet wide, and two feet ten inches high. It is constructed of rosewood, and finished in the most exquisite manner. The seats are covered with crimson, also the backs, which revolve, similar to those on the Reading and other roads. The "model" has been tried on a track 117 feet long, which was laid in the new building, in progress of construction on the corner of Seventh and Fairview streets, and worked admirably. A railway track will also be sent to Japan, with the locomotive and its appendages. [Philadelphia Dollar Newspaper.]

Suicidal Attempt at Suicide.

Some time yesterday a tailor living near the corner of Second and Cherry streets, attempted to commit suicide while under the influence of liquor, by stabbing himself in the leg with a pair of scissors. He was prevented from further mischief, and sent to the Hospital, though not until he had given himself some severe wounds. He gave his name as John Kosuth. That is not however, his real name. [St. Louis News.]

ANGELS.—Some people make strange mistakes as to the nature of angels. They talk of women as "angels." There's not a word in the whole Bible about a female angel! They are always of the other sex.

Some unhappy married man surely wrote the above. A bachelor would not have been so ungallant.

CALIFORNIA SANDWICHES.—A slice of leather placed between two white-pine chips. Mustard extra. A liberal discount to those who buy to sell again.

To the People.

I WOULD select the special attention of all persons who know themselves indebted to me, to be met with the commencement of this year I am determined to close up all of my old accounts, either by CASH or NOTE; and that an early call and prompt action on the part of every one of my debtors will oblige. Your humble servant, J. E. SELMES.

From the N. Y. Tribune.

ACHILLI.
The ex-monk Achilli announces through a London paper his intention speedily to leave England for America, and we may fairly presume that he is now on the way. In the prospect of his arrival, we proffer these suggestions.

Achilli was a Roman Priest, became an Italian Patriot, then an anti-Romanist, and, having fled to England, came out in that country as an anti-Papal lecturer and preacher. While acting in this capacity, he was publicly assailed by Dr. Newman, (a distinguished convert from the Anglican to the Roman Church), as a seducer and libertine, thoroughly corrupt and licentious, and every way unworthy to be regarded as a teacher of religion. For this attack, Achilli, and a veridical proceeded against him, and a verdict of Guilty was obtained on the charge, but in the face of such a damaging array of testimony, running through almost the entire adult life of the ex-monk, that nobody who read the trial would have preferred to be the ridiculed Achilli rather than the convicted Newman. The London Times, not apt to take the Catholic side of any controversy, was most pointed in its condemnation of the verdict and of the ruling and charge of Lord Campbell, under which it was rendered. Achilli's religious congregation soon after melted away, and his migration from Great Britain is doubtless among the consequences of his encounter with Dr. Newman.

Well! he is quite right in quitting England; and none will dispute his right to turn his face toward our hospitable shores. He has a farther right to appear among us as a teacher of religion or a censor of other men's religion; but should he be so unwise as to assume that character, we trust he will be most severely let alone. His right to speak is undoubted, but it does not impose on any one an obligation to listen. We presume Roman Catholics do not want to hear him, and we protest against any step being taken here that will saddle protestantism with his tainted reputation. We do not say his innocence is impossible, though we cannot reconcile it with the testimony adduced on Newman's trial; but it is manifest that, until his character shall be cleared up, his advocacy of any form of Religion can do us no good, but much evil. Let him respect that public sense of decency which commands him to silence and obscurity.

DRUG STORE.

J. B. BROWN & CO., Druggists and Apothecaries, City Hotel building, Hannibal, Mo. We keep constantly on hand, a full and carefully selected Stock of Drugs, Medicines, Proprietary Medicines, pure Wines and Brandy for medicinal purposes, Remedial Instruments, Paints, Oils, Broths, Varnishes, Dye-Stuffs, Window Glass, Glassware, Spices, Perfumery, Fancy Goods, &c., with every thing usually found in a completely furnished drug establishment. Our Medicines are selected with special regard to freshness and purity, and are all WARRANTED genuine.

In making our purchases from abroad, we deal only with respectable and responsible men, and are governed in our selections, by the QUALITY rather than by the price of articles. J. B. BROWN & CO. (mch24-53-wly)

\$1000

ONE THOUSAND DOLLARS.

No person who will furnish us, within three years, a Set of patterns for a Cooking Stove, Superior to the "Prairie State" in its operation, durability, neatness of finish and design, we will pay the above named sum of one thousand dollars.

This new and beautiful stove presents itself externally, in a plain, simple and unassuming way, and admirably proportions, giving it the appearance of a chaste and tastefully made piece of furniture.

PRAIRIE STATE, Nos. 1, 2, 3, 4.

This stove has been thoroughly tested—from eight o'clock in the morning until ten at night, for three years. It has no equal for draft, durability, and neatness of finish and design. In baking, broiling and boiling it is superior to any other stove. It is very easy to understand its use, and it will do more work in less time, with less fuel and trouble, and will do better, it is believed by those who are using it, than any other stove. It is well known to all who have used the Prize Premium Stoves, manufactured by G. F. Filley, St. Louis, that they are drawing through the oven, it consumes a large quantity of wood, and soon burns out, making it very unprofitable for the buyer. In the Prairie State Stove all these objections are done away. The plates are heavy, which makes the stove durable. This stove is made of the Gray Scotch Pig Iron—not of the Missouri Mountain Iron, it is well known to all who are acquainted with iron; that the Missouri Mountain Iron is not fit for making stoves of durable life. That accounts for the breaking of the stoves manufactured of that iron; we acknowledge that the Missouri Mountain Iron makes excellent bar iron. The flues, upon which the responsibility and reputation of a stove rests, differ from any ever before used, and are of such a construction and capacity as to insure the most perfect draft. We are satisfied that the Prairie State Stove will last twenty-five years, if properly used. It is nearly double the weight of any other stove of its size in market. Purchasers will bear in mind that it is always cheapest in the end to buy a heavy stove, as more iron is purchased for the same amount of money, than in a light one. This stove has taken the first prize at all the fairs in the State of New York, and every other State where it has been present. This stove will take larger trimmings, and has a larger oven to its size than any other stove in the market. This stove is not now on offer in any of the stores, as it is a stove called the "Chariot Oak." The Hannibal Mammoth Stove Store is the only place where the genuine Prairie State Stove is sold in Hannibal. I have also a large assortment of stoves of the latest patterns, from every important foundry in the United States, which I will sell at reduced prices; also a large lot of tin and copper ware, all of which I sell fifteen per cent. cheaper than I can be had in this city; for sale at the Hannibal Mammoth Stove Store, corner Main and Bird Streets, opposite the Wild Corner, Hannibal, Mo. P. A. HICKMAN.

References.

J. Gore, Judge Cook, Russell Moss, Dr. Norton, D. Long, A. Binn, Samuel Smith, N. London, Dr. L. T. Brittingham, G. Caplinger, A. Darnon, Dr. M. P. Brown, R. C. McCony, H. McCoy, Briscoe, H. Westfall, Dr. Rackford, J. Barcus, Plank Road Contractor, James Quarles, J. R. Shockey, A. Francis Brown, Dr. M. P. Brown.

I only give a few references—I could give you five hundred in this vicinity if it were necessary. The Prairie State Stove is almost entirely used throughout Illinois and Iowa. I warrant every stove and will pay to any person who will produce a perfect Prairie State Stove that will not bake, cook, work and operate as stated, one hundred dollars. Wholesale dealers will do well to call on me before purchasing, as I can furnish them stoves lower than they can be purchased elsewhere, and at a far superior article, as the last year has testified. All of my stoves are manufactured of the best of iron, and I warrant extra plate for all stoves of heavy pattern, charging no profit, and nothing for my trouble. I am presently located in this city, and will accommodate any one who will call on me, if possible.

JAN 27-6m

DR. B. H. WASHINGTON.

Is Agent for the Rheumatism, Water-Cure, and all the various diseases of the system, and will procure them or any other works on accommodations. Orders respectfully solicited. (my19w4m)

We are authorized to announce Capt. S. A. BOWEN, as a candidate for Clerk of the Court of Common Pleas Election next August.
